

Online Sibshops Training!

The online Sibshops Training is one event with two goals and two audiences:

Primary goal/audience: To train new Sibshop facilitators and administrators who want to learn how to run a Sibshop. Trainees attend multiple online sessions, typically over one week, to learn about sibs' life-long concerns, find out how to organize a Sibshop, and experience an online Demonstration Sibshop. These trainees must attend all sessions of the training to become a Certified Sibshop Facilitator. Upon completion of the training, Certified Sibshop Facilitators may register and start their own local Sibshop.

Secondary goal/audience: To educate parents, service providers, and others about sibs' ever-changing issues across the lifespan. Participants are interested in sibling issues, but not necessarily in running a Sibshop. This audience attends only session #1 through adult sibling panel of the online training.
